

# Auction Checkout

## The way to pay on eBay.

Finally there's a simple, safe, and secure way to accept credit cards and process your eBay transactions using your own merchant account and gateway!

AuctionCheckout is an easy-to-use, yet powerful payment system designed specifically for merchants like you that sell on eBay. With just one click, you can add the AuctionCheckout payment button to all of your eBay auction listings. Even if you use another eBay item management service, use AuctionCheckout and save money on expensive final value fees.

When the auction is over, buyers click on the AuctionCheckout payment button and complete the payment process in seconds. Because AuctionCheckout is integrated with your payment gateway, you have instant access to the order. AuctionCheckout even let's you capture the funds using our at-a-glance transaction list. No more guessing about the status of your payments. Each transaction includes important information like the customers' contact information as well as approval codes and status levels.

## The smart alternative.

If you're serious about e-commerce, and already have a merchant account and payment gateway, you need the added protection of AuctionCheckout. That's because only your merchant account provider can give you the benefits of your own financial institution to protect you and your customers. Here are just a few of the many reasons why smart merchants love AuctionCheckout...

- ❑ Your merchant name is always displayed on your customer's credit card statement, reducing confusion and chargebacks.
- ❑ No memberships, ever! We don't force your customers to join before they pay.
- ❑ Whenever there is a dispute or issue with a transaction, you contact your merchant account provider directly, not a third party.
- ❑ Funds are automatically deposited into your checking account. No waiting, no worries.
- ❑ You have a virtual terminal to manually process or modify transactions at any time.
- ❑ The optional Verified by Visa and MasterCard SecureCode stops chargebacks and fraud before you accept payment.
- ❑ Shipping and handling charges are calculated based on the eBay settings for added consistency.
- ❑ You can quickly export your transactions in file that's compatible with Microsoft Excel or accounting software.
- ❑ The entire shopping experience is 100% secure and the customer's information can never be compromised.
- ❑ There's no need for an expensive auction management system in addition to your website and payment gateway.
- ❑ AuctionCheckout is immune to phishing scams because we don't store any sensitive data.
